A Million Deposit Accounts Denote Confidence

At its offices throughout Canada the Bank of Montreal has over one million deposit accounts.

The depositors, Canadian individuals and Canadian business firms, represent every class of the community in city and country allize—from persons of large means to children starting their life's savings, from industrial corporations of international scope to farmers and small

Good faith, good will and good banking practice on the part of those directing the Bank grow naturally out of the sense of responsibility imposed by this ex-pression of aution-wide confidence.

WINDS OF MAY

There's a little lilt of loving In the winds that blow today, And it sets my fancles roving To a fragrant, vanished May, To ap ath where sunbeams shimme And the star-eyed daisies glimmered. As the winds went dancing through.

There's a little lilt of loving
In the winds that blow in May,
Bringing memories blithely movin
From a far-off springtime way,
And the breezes set me dreaming
Of the days that are gone buy,
Of past flowers weeter seeming,
Of past Maytime's bluer sky.

But, for all my memories' roving.

And for all my fancies' njay,
There is still a lilt of loving
In the winds that blow in May!

EE your local Hydro Commission for further information about the Hydro Plan of Free Electric Hot Water Heater Installation.

Perhaps you have long desired the convenience of continuous, automatic, hot water heating in your home. If so, the Ontario Hydro Commission offer of free installation of flat rate electric water heaters in Hydro homes is your opportunity.

Remember, installation of these heaters does not cost a cent. And all heaters are automatically controlled. A turn of the tap gives you hot water instantly-hot as you need and as much

as you need-a whole tankful at a time. All waste is prevented. Tanks are insulated to retain heat. Automatic control shuts off current when water is at desired temperature. At any hour, hot water is available without trouble, worry or attention.

Mail the coupon below now. Secure early installation. Electric water heating, under the Hydro plan of free installation—and at the new low rates now in force-will cost you less and give you more than any other system of water heating. Mail the coupon now to your local Hydro officials or municipality.

THOUGHTS THINGS

THE business of living, when boiled down and all the froth skims off, is just a matter of thinking.

Each of us is continually thinking ideas of our own and swapping them for the ideas of others. If there is a famine of outside ideas we shrivel up ourselves. Children with "nobody to play with" are unhappy

From thinking with our heads to doing with our hands is but a little step and then our thoughts become things.

It is because men of America are so unfettered in their thinking and doing that this country is such a fine place to live in. It is also because these thoughts are freely radiated and spread broadcast, in the distribution of manufactured things and in the distribution of the facts about them (advertising), that this country is such a fine place

The originator of an idea is not much better off than before he originated it till he gets some one else to absorb it and enjoy it and

The man or woman surrounded by better thoughts and things but who pays not the slightest attention to them is not much better off than the one with "nobody to play with."

The advertisements in the papers are thoughts-telling you about the things that other men and women have created for your happiness. Read the ads. They are the volces from hundreds of thousands of looms, shops, foundries, studies, laboratories, where millions of minds are turning pleasant thoughts into worth-while things for your com-

THERE'S no secret to it. Just a bit of this, and a dash of that, and fill your glass to the brim with Canada Dry.

But it's really important to use The Cham-agns of Ginger Ales in a long, tall drink. For anada Dry doesn't merely mix . . . it blends! And that makes all the difference in the world!

Just try it! Even the ice seems to tinkle more sically. Deep down there's a gleam of frosted gold and a gay parade of crystal hubbles you see only when the drink is made with Canada Dry. And what other beverage ever had such a bouquet ... such tangy zest?

We could give you plenty of reasons for all this. Tell you about our special process of car-bonation; about the care we take with our ginger; about our secret formula; about the perfect bal-ance. But what's the use? Your first sip of a long, tall drink made with Canada Dry will do all this . . and more! It's a treat no one can describe And of course it's delightful just by itself!

NEW LOAN

For recovery it is clearly public men realize that budget balancing must be part and parcel of the improvement. Otherwise nations would go the way of the man who spends more than, he has in income and the way of that course of living is bank-

the way of that course of reducing the interest charges on the national debt as one means of bringing down the huge load which presses taxes upon the people. The Finance Minister's task of financing the Dominion out of the depression is not a light one but what success he has will redound

JUST FISHIN

Fishing seems to me to be A darned efficient remedy— No matter how sad-like I feel. Just let me thumb my good old reel. Then right away my woes have flee And o'er my face a grin is spread.

Fishing soothes the troubled soul. There's healing magic in a pole—bly face can be the saddest sight Until I feel a mighty-bite;
Say, who can wear a worried look When he has a fish upon his hook?

Fishing cures most all the ills, maning cures most all the ills, From weary brain to shakes and chills. Fishing's good for what you've got, So if you worry quite a lot Go get yourself a line and hook And stretch yourself beside some brook Just fishin.

Who's Your Tailor?

EVERY DAY hundreds of men who wear Tip Top Clothes are being asked, "Who's your tailor?" And no wonder, for every man wants the fine fit, the fine woollens, the uncommon shades, the superb tailoring which Tip Top Tailors alone can bring you at \$19.50.

Are you being constantly asked who your tailor is? Why not join the ever-growing group of successful men who swear by Tip Top hand cut, tailored-to-measure clothes?

For the 24th and after, we suggest the blue and white or brown and grey ensemble. Even with the extra trousers you're still paying less than you would for equal value elsewhere.

MR. PICOBAC STOPS OFF AT HAMILTON

Having in his pardonable enthusiasm forgotten the peroration of his carefully prepared speech as delivered before Hamilton's Chamber of Commerce, Mr. Picobac addressed the burden of his concluding remarks to the station agent.

"If want you to coavey to the people of Hamilton,"
said he, "my vision of Hamilton's future . . . A city
of teeming millions . . . a city of MEN . . . WOMEN
. and CHILDREN!" . . Its industrial life made
manifest by the smoke of a thousand chimneys : . . . "Boa-a-a-rd!" interrupted the conductor; "Toronto ... Ottawa ... and Montre-all!"

A grip in each hand, his Hamilton peroration still unfinished, the philosopher of sunny southern Ontario made for his train.

"What about Picobac?" cried the Handy Station Master.

"It's a mild : : : cool : : : sweet smoke," called back Mr. Picobac from the steps of the parlor car.

Picobac tobacco is the pick of Canada's Burley crop, grown in sunny southern Ontario. It DOES taste good in a pipe.

TO CLEAR UP BOILS AND PIMPLES

N B YEAST FLAKES helps clear up boils, pimples and other skin troubles, because it is the world's richest form of yeast — pure, brewers' yeast:

It supplies the body with vitamins necessary to health, and it acts as a natural laxative that promotes the regular elimination of wastes from the body, and so clears and putifies the blood:

For skin eruptions, lack of energy, a generally rundown feeling, try N B YEAST FLAKES. It keeps indefinitely. At grocers' and druggists'.

More Value for Less Money

YOU GET more value for less money when you buy the New Ford V-8. More room. More power. More speed. More beauty. More of everything that makes you say—
"I'm glad I bought this ear." Here are just a few of the features that make the New Ford V-8 the greatest value in automobile history. BEAUTY—The New Ford V-8 is one of the best-looking cars on the road to-day—regardless of price. It is the style leader for 1933.

SIZE—The New Ford V-8 is the largest, roomiest low-priced car. The wheelbase is a full 112 inches. That means 100% riding comfort.

PERFORMANCE — Again Ford leads. There's nothing like its 75 horsepower and 80 miles an hour speed in the low-price field.

SMOOTHNESS-The New Ford V-8 is the only low-priced car that gives you the smoothness of a V-type, eight-cylinde engine—that satisfying feel of a big car

ALUMINUM CYLINDER HEAD-Another outstanding Ford feature. An example of the high quality built into the car. An important factor in its speed, smoothness and economy.

 BODIES — One-piece STEEL closed bodies. Built for beauty, strength and aniet.

PRICE—Prices of the New Ford V-8 are remarkably low. You pay less and you get more when you buy this big, roomy, powerful car.

ECONOMY.—This new 1933 Ford V-8 is economical on gasoline and oil. Letters from owners tell of exceptionally low operating cost. A recent letter reported better than 23 miles per gallon.

See the New Ford V-8 at the showrooms of the nearest dealer and arrange for a temostration. Check up on price—on what you get for what you pay, who ride in the New Ford Four—another great value at a still lower price. In improved 50-horsepower motor is completely cushioned in rubber, for quiet and sunochness.

HAND LOST BY HUNTER

The Tale of Shabbytown

It was a pretty little village when it first came into being, but that was when everything was new. But somehow or other, nobody seemed to

on the subject, they always said: "We're so busy building a bigger town that we can't stop every little while to Clean-Up and Paint-Up."

But the funny part of it was the town failed to grow. It just stood stationary, and folks who came there visiting, with an eye to settling down, or opening a store, or building a factory, shook their heads and kept moving.

MORAL: Progress and Paint seem to go together.

TITLES

The title question is upon Canada again as Premier Bennett has pointed out that the embargo of 1919 is not binding. Those who receive titles will have occasion to be pleased and some few of the millions who pleased and some few of the millions who do not may be irritated, because they do hope in a few properties of the proper

inary affairs of life.

What Canadians do not want is a hereditary aristacray of title. In recent
years a change has been made in England
whereby His Majesty acts upon his own
initiative in the awards. This, no doubt,
has removed abuses under the old system
when the honor came as the result of gorrement recommendation. Titles and honorn awarded for merit only, will, doubtless,
here is a clock which title away

It's time to change to crispness

THIS is the season when everybody is tired of heavy foods. You welcome the return of the birds, the grass and the early flowers of summer. Just the thought of something crisp and fresh makes you hungry.

So change to crispness. Let Kellogg's Corn Flakes-crisp and tempting-bring a refreshing touch to breakfast.

It has long been one of our greatest sources of satisfaction that Kellogg's Corn Flakes help so many thousands of women brighten the menu-at the same time, saving them work, trouble and cooking. Kellogg's are the modern food.

Thoroughly cooked for you in modern plants at London. Rich in energy. Very easy to digest. Delicious with hot or cold milk. Extra good with canned fruits or berries.

For breakfast, lunch or for the children's evening meal, Kellogg's bring a refreshing flavor change. Oven-fresh in the red-and-green package at your grocer's. Made by Kellogg in London, Ontario.

GREATER FORD VALUES THAN EVER BEFORE

THE new Ford trucks and commercial cars are designed, built and priced for today's business conditions, when every dollar must

count as it never counted before. Ford units are economical. They make

fuel, oil and tires go farther. Ford units have speed that saves precious time. And where service conditions demand the ultimate in speed and power, you may have the improved V-8 75-horsepower engine, at slight -nee

additional cost, instead of the improved 4-cylinder engine. Ford commercial equipment has greater

strength and durability, to stand the grind of daily service, over bad roads and good. It will pay you to investigate the greatest

values ever offered in Ford history, Note how much more you get today for your dol-

lars and cents, in strength, stamina, reliability, economy, speed, beauty, See the nearest Ford dealer.

COMMERCIAL CAR FEATURES

To purchase London Life participating policies is to share in the Company's success

Here's a Typical Example

POLICYHOLDER purchased a \$3,000 Twenty Payment Life policy 19 years ago at age 37. He has had \$3,000 life insurance protection throughout all these years and, in addition, now has considerably more cash to his credit than he has paid in premiums.

The total premiums (\$115.80 for 19 years) \$2200.20, have been reduced by annual dividends amounting to \$703.59. The cash value of his policy is actually \$174.39 more than the premiums paid by the policyholder.

Note: The cash value of the policy increased \$120.00 this year, at the same time the premium was reduced \$6.22. The increase of \$1.20. The increase of \$1.20. The policy in this one year, therefore, was nearly double the premium paid, which shows what a splendid investment this policy has become.

The London Life is in an exceptional position to give gratifying results to its policyholders.

GREATER FORD VALUES THAN EVER BEFORE

THE new Ford trucks and commercial cars are designed, built and priced for today's business conditions, when every dollar must

count as it never counted before. Ford units are economical. They make

fuel, oil and tires go farther. Ford units have speed that saves precious time. And where service conditions demand the ultimate in speed and power, you may have the improved

additional cost, instead of the improved 4-cylinder engine.

Ford commercial equipment has greater strength and durability, to stand the grind of daily service, over had roads and good.

It will pay you to investigate the greatest values ever offered in Ford history. Note how much more you get today for your dol-

lars and cents, in strength, stamina, reliability, economy, speed, beauty. See the nearest Ford dealer.

You'll like it. Everybødy likes it. It's welcome everywhere. It has such a wholesome flavour, such a refreshing tang. It adds life...sparkle ... gaiety.

Muntos Stone Ginger Beer is thoroughbred English-a brew with head, body and spirit. As a pickme-up when one is fagged there is nothing like it.

For social entertaining it is just what the occasion demands-either "as it comes"-clear, wholesome, thirstquenching and invigorating-or mixed.

Huntes Stone Ginger Beer mixes with the best there is anywhere, anytime. Order it when thirsty down town or on the road.

A Challenge To Dad:

Buy your boy a C. C.M. NOW If he doesn't pass his

we will take back the bike

and refund your money

That's a good sporting proposition, isn't it, dad? We are willing to bet that your boy will study like a "nailer" to pass his EXAMS rather than take any chance of losing possession of his C·C·M· By buying it now he will be able to enjoy a full season's use of it. This offer applies to the Midsummer Term exams uly. Claims for refund must be made to dealer from whom bicycle was purchased uithin one week of announcement of the Examination results.

7 Points of C·C·M·

Superiority

Whether you know bicycles or not, your boy does, and you can trust to his judgment. His preference for a C·C·M· is due to several reasons, seven of which

7. C.C.M. Triplex Hanger.
7. C.C.M. Improved Coaster Beake (Hercules).
3. C.C.M. 20-year Nickel Plating.
4. C.C.M. Rostless Steel Spokes.
5. C.C.M. Hard-wearing Enamel. lop Tires and 7. C.C.M. Owner's Service Guarantee Bond. C·C·M· Owner's Service Guarantee Bond guarantees the quality of the bicycle and the service to be given on it. Your dealer will show you this Bond when you drop in to see the new 1933 C·C·M· Models.

Ask your dealer for the new C·C·M· catalogue or write for one to:

ANNOUNCING

THE APPOINTMENT OF

A NEW FORD DEALER

Trudeau Motor Sales

Belleville, Ontario

WE TAKE PLEASURE in announcing new Ford dealer in this territory. The appointment is in keeping with the established Ford policy of rendering thoroughly satisfactory service to Ford owners throughout all sections of Canada.

The Ford service policy is founded on the belief that a sale does not complete the transaction between us and the buyer but establishes a new obligation on us to see that the car gives good service.

We are as much interested in your economical operation of the car as you are in our economical manufacture of it.

Every Authorized Ford Dealer has pledged himself to the carrying out of this policy. Throughout the entire life of the our, the constant endeavor will be to help you get the greatest possible use over the longest period of trouble and expense.

The mechanics of all Ford dealers are thoroughly trained in schools conducted by the Ford Motor Company of Canada, Limited, and they use tools and machinery made specially for servicing the Ford car-When replacements are necessary, the parts used are identical in size and quality with those from which your car was originally assembled in the Ford factory. The charge for these parts Is low, in accordance with the Ford policy. Labor on all ordinary maintenance operations is billed at a standard flat rate. No matter what the job-large

or small-you will find the Ford dealer equipped to handle it for you promptly, at a fair price, and in an intelligent, businesslike manner. The well-ordered cleanliness of the display room and shop and the consistent courtesy of all attendants will time at a minimum of Ford be especially appreciated by the lady driver.

The new Frigidaire that uses no more current than one ordinary lamp bulb

SEE IT AT OUR DISPLAY ROOM TODAY

Here is one of the most sensational Frigidsires ever built. It actually uses no more current than one ordinary lamp bulb! Think what that means in low cost of

operation!

And with this amazing economy there is a combination of conveniences never before found in an electric refrigerator.

The new ice trays with automatic releasing so that they alip out of the freezer at a touch of the finger. There is extra room for tall containers—automatic de-fronting—a compartment for front atorace. With these convenience—with new style, porcelain interior and a finish of sparkling white Duco—with inbuilt de-pendability and genuice Frigidaire quality throughout—every detail marks this new Frigidaire as no outstanding value. We invite you to call and see it for yourself, room for tall containers-automatic d

Benry Ford May 15, 1933

Time and again I am told-by my own organization and by others

that I penalize myself by quality. Friendly critics protest our putting into the Ford Y-8 what they Friendly critics protest our putting into the Ford y-w such they call "twenty-year steel." They say such quality is not necessary: the public does not expect it; and that the public does not know the difference anyway.

But I know the difference. I know that the car a man sees is not the car he drives-I know that the car a man sees is not the car he drives—he drives the car which its sean, comprises beauty of design, color and attractive accessories,—all comprises beauty or design, color and attractive accessories,—all desirable, of course. The best evidence that we think so is that they are all found on the Ford V-S.

are all found on the Ford V-8.

But these are not the car. The car proper, which is the basis of
all the rost, is the type-of engine and its reliability; the structure all the rest, is the type of engine and its reliability; the structure of chassis and body, ruggedly durable; the long thought and experiment of chassis and body, ruggedly durable; the long thought and experient given to safety factors; the steady development of comfort, conven-

ience and economy. These make the car.

A car can be built that will last two or three years. But we have never built one. We want the basic material of our car to be as have never built one. We want the pasic material of our car to be dependable the day it is discarded as the day it is bought. Ford dependance the day it is discarded as the day it is bought. Ford cars built is years ago are still on the road. It costs more to build a durable car—but two items we do not skisp are cost and Dulid a durable car—but two items we do not skimp are cost and conscience. A great many things could "get by"—the public would

nover know the difference. But we would know.
The new Ford V-B is a car that I endorse without any hesitancy. The new rord v-5 is a car that I endorse without any nesicancy I know what is in it. I trust our whole thirty years' reputation a know what is in it. I trust our whole thirty years' reputation with it. It is even better than our previous V-8. It is larger, more rugged and mechanically a better job all round.

, rugged and mechanically a certer job all round. I readily say this in an advertisement because I know the car will back it up.

Kenny Ford

This recent letter from Henry Ford expresses the fundamental policy behind the Ford car. It is so frank, clear and convincing that it is reprinted here by the Ford Motor Company of Canada, Limited.

MR. PICOBAC HITS TORONTO

Lights ::: black shadows ::: incessant honking of motor cars. And a policeman in white gloves directing traffic with his thumb.

Watching his chance, Mr. Picobac worked his way out to the intersection. "Wait for your light, now," ordered the limb of

the law.

Mr. Picobac put down his baggage.

"Thank you," said he . . : "I've just come down to Toronto to investigate smoking conditions." he began, nicking a match with his thumb nail, and relighting his pipe.

"And how are the crops in your part of the country?"? inquired the policeman, waving the traffic by.

"Not bad," replied Mr. Picobac; "not bad. We got a good crop of Burley—that's one thing. Burley makes Picobac—and Picobac in a pipe makes what I call a mild ... cool ... sweet smoke."

"Me, too," said the policeman, hold-"Me, too," said the policeman, note-ing up his hand for the fraffic to come to a pause. "Now, go ahead. You got your light." pocket tin. 15c
